Subject: Annual ACEC and RNA Report

A copy of the Annual Areas of Critical Environmental Concern (ACEC) and Research National Area (RNA) Report for FY 2000 is attached for your reference and use. This report is based on information provided by the BLM Field Offices. The Taos Field Office section of this year's report reflects changes made during FY 2000 to ACECs in the Rio Grande Corridor RMP Amendment to the Taos RMP. In that plan, several existing ACECs (identified as 020-X) were combined with existing or new ACECs. Those identified with the 020-X have been included in this year's report, to show how they were combined, but will not be included in future reports.

If you have any questions or concerns on this report, please contact J.W. Whitney at (505) 438-7438.
